,, gada	...	... = 20 khandis.

Miscellaneous—

A Nagar or Plough of land is as much as two buffaloes and two bullocks can cultivate, and amounts to 20 to 25 acres.

A Pao of land is a quarter of a Nagar.

An acre of land takes 12 kathas (or 56 seers) of rice as seed grain.

(*a*) In the Kurud market, the katha of 5 seers with the "kangan" of one seer is current.

Note.—In Raipur and Dhamtari towns, kathas and chauthias or kangans = 400 and 80 tolas of wheat, respectivel

APPENDIX.

Note to supplement, correct and enlarge the information contained in the A Volume Gazetteer of the Raipur district.

The re-settlement of the district resulted in rent enhancement by 25 per cent and Revenue enhancement by 36 per cent. The statement below gives the acreage rates which the different classes of tenants pay since the first regular settlement :— Para. 203 of page 226. Effect of re-settlement.

—	As fixed by Mr. Hewett.	As fixed by Mr. Carey.	As fixed by Mr. Hemingway.

Occupancy ...	0 9 1	0 10 7	0 13 11
Ordinary ...	0 9 6	0 10 5	0 12 8

The total revised revenue amounts to Rs. 7,27,450 as against Rs. 5,34,635 at the last settlement. The amount of revenue enhancement obtained is Rs. 1,92,815 or 36 per cent as stated above.

Notwithstanding that the home-farm as compared with the last settlement has increased 65 per cent the Malguzars lose Rs. 2,894 only by re-settlement. Para. 204, page 227. Its effect on the Malguzars.

Considering that the revised rental demand has been accepted at recent announcement without a murmur, it can be safely said that the enhancement has hardly been felt at all. Para. 205, page 228. Its effect on the tenants.

The announcement of revised rents and revenue of the whole district was begun in 1908-09 and was completed by the end of November 1910. Para. 206, page 229. Announcement of revised rents and revenue.

Previous to 1879 there were three systems in force : (1) the Sadar Distillery system, (2) the Contract Still system, and (3) the Outstill system. In that year the Contract Still Para. 225, page 245. Excise country liquor.

system was abolished and in 1895, 27 outstills were absorbed into the Sadar Distillery system which had its headquarters at Raipur. The latter was gradually extended, till in 1911-12 it supplied an area of 3,890 square miles with 107 shops. In 1912-13 the supply system has been introduced in the whole of the Sadar Distillery area. For the remainder of the district there are 159 outstills. In the district as a whole there is one shop to every 37 square miles and 4,982 persons. The revenue in 1911 amounted to Rs. 1,59,255 giving an incidence of 1 anna and 11 pies per head of population. The Zamindars, 14 in number, used to control their own excise and enjoy the income subject to payment of a fixed contribution to Government. Government consequently resumed control granting the Zamindars compensation for the loss of their rights, and making them farmers until the expiry of the land revenue settlement offered an opportunity of a fresh arrangement. One Zamindar (Khariar) refused these terms and the contracts for his estate were made by the Deputy Commissioner direct. The resumption of these rights led to litigation. The Privy Council have recently (1912) decided the case in favour of Government. The farms are discontinued from 1911-12 and all Zamindari contracts are now sold by the Deputy Commissioner direct.

Para. 226, page 245, Opium and Ganja.

The revenue from opium and ganja in 1911-12 was Rs. 2,60,296 and Rs. 60,995, respectively, giving an incidence per head of 3 annas and 2 pies and 8 pies respectively. There were in that year 86 opium shops, or one shop to every 114·3 square miles and 15,408 persons; Ganja shops amounted to 96 or one shop to 102·4 square miles and 13,803 persons. Ganja was freely grown in the Native States to the south of Raipur, but the cultivation has now been stopped under the orders of the Government of India and smuggling has greatly decreased.

In 1911-12 the Excise revenue under all heads amounted to Rs. 4,82,048, giving an incidence of 5 annas and 9 pies per head.
